Dear Vasulkas,

Please send me a dub--colorized--of the tape called Decay in the Raindance tape list. We'll be showing it at a video event at the University of Illinois in mid-May and so would like you to write a sentence or two about the tape that you send in order that we can include the description in our program notes.

Thank you,

Anda Korsts

PS: If possible, could you send the tape by the 10th of May? If not, we need it by the 15th at the latest. If that date is too soon too, let me know, ok?

Also, I haven't seen the tape I've ordered. If you think any other ten minute segment would be more suitable for a group of people who haven't seen much tape of any kind, send that instead.
